

THE LEADING MANUFACTURER OF PREMIUM
QUALITY CONCENTRIC EMG ELECTRODES

ORYX products are designed, manufactured, and quality-controlled in accordance with international standards ISO 13485:2016 and the European Medical Device Regulation (MDR) 2017/745
Version: 03 This official edition supersedes all previous versions

ORYX® Healthcare

WWW.Oryxhealthcare.com

WWW.Oryxhealthcare.com

The ORYX name is inspired by a rare species of antelope with long, symmetrical horns a symbol of sharpness, accuracy, and engineering elegance reflected in our EMG needle design. Founded in 2018, ORYX has grown into a rising global brand with engineering precision, clinical experience, and advanced infrastructure at its core.

"Through the animals faced extinction in the early 1970s, when only 6 remained in the wild, the numbers have dramatically increased, thanks to breeding programs and conservation efforts." Ali Faisal Al-Houti

CONCENTRIC EMG ELECTRODE

FEATURES

- High signal clarity and low impedance
- Smooth insertion with low penetration force
- Color-coded ergonomic hub
- 25 needles per die-cut box
- Single-use
- zero baseline
- for use by trained medical professionals (Intended User)
- Including Sensitization and Irritation tests
- Sterilized with Ethylene Oxide (EO) with ISO11135

Regulatory Identification:

- Risk Class: IIa under MDR Annex VIII
- SRN: TR-MF-000042900
- REF No: ORX/CTG-03
- UDI-DI: Registered in EUDAMED for full traceability

	Plastic Hub Item number	Length (mm)	Diameter (mm)	Surface (mm)	Gauge
	PEN 102838	38	0.34	0.2	28
	PEN 102828	28	0.34	0.2	28
	PEN 102628	28	0.45	0.7	26
	PEN 102638	38	0.45	0.7	26
	PEN 102650	50	0.45	0.7	26
	PEN 102375	75	0.63	0.7	23

Made of stainless steel (ISO 10993)

easy to open

Ultra sharp and smooth penetration

CONNECTION CABLE

FEATURES

- Precise Signal Transmission
- Standard 5-Pin Connector
- High Flexibility and Durability
- Reusable
- length : 150 CM
- compatible with all standard EMG machines

CE

VISION

At ORYX, we believe that innovation in medical technology can change lives. Our goal is to enhance diagnostic and treatment quality by providing advanced medical equipment that helps healthcare professionals and medical centers deliver better care to patients. Our social responsibility goes beyond manufacturing medical devices. In times of crises, such as the Russia–Ukraine war, we have done our utmost to supply EMG products to facilitate faster diagnosis and support those affected. Our mission at ORYX is to make innovative medical technologies more accessible globally and contribute to the health and well-being of communities through innovation and social responsibility.

Regulatory Identification:

- Risk Class: I accessory under MDR Annex VIII
- SRN: TR-MF-000042900
- REF No: ORX/CTG-03
